

## 20250416 - List of minor adjustments/Bugs

### 1. Capture of New Vehicles contain issues.

The issue we faced when capturing a new vehicle persists. When a data is captured from the character recognition for 'Model', 'Engine Capacity', 'Fuel used' and 'Transmission Type' is not the same as what we have in the admin database, the system continues to try without timing out. The orange button at the bottom of the screen remains active without saving the vehicle.

I suggest we change the following for it to work without blocking.

- i) Leave the 'Engine Capacity' to free text, as captured by the character recognition;
- ii) If any of the drop down lists of items is not the same as per the database of the admin, change it to red font which shall allow the user to select appropriately from the drop down list.
- iii) allow for a timeout in case the data cannot be saved and indicate where the problem is. currently it keeps on processing and user does not know what the problem is.
- iv) Also, allow for any font type, small letters or capital letters.

2. Remove one [model] in the vehicle description as per highlighted below. It appears twice.

3. Add static text underneath the Graph to indicate that
- Your Vehicle
  - Other Vehicles

4. An Insurance Company has been created and an email for a user added, but the Insurance User did not receive the email. I have inserted one for Bhoopendra, you will note that you have not received the email to activate your insurance user account. PLease check and correct.

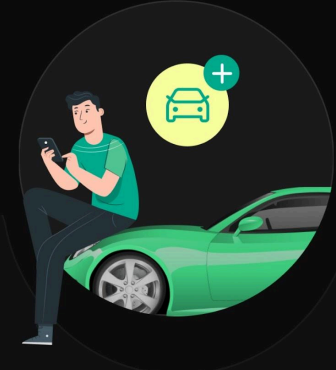

The screenshot displays the 'Insurance Company List' page in the Cruise Vehicle Management system. The page features a sidebar with navigation links, a header with user information, and a table listing insurance companies. The table has columns for S.No., Insurance Company ID, Insurance Company Name, Employee Full Name, Email, Created On, and Last Updated On. The data is as follows:

S.No.	Insurance Company ID	Insurance Company Name	Employee Full Name	Email	Created On	Last Updated On
1	15	SWAN	Reste Zen	zen.reste@gmail.com	2025-04-16 06:28:50 PM	2025-04-16 07:32:10 PM
