

List of bugs noted:-

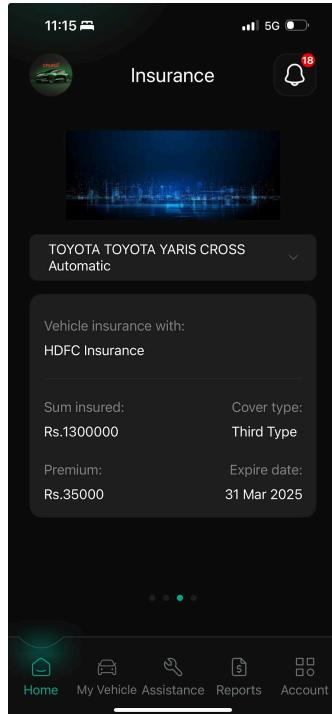

1. Please align information on same line or double line. MS869 not properly aligned.

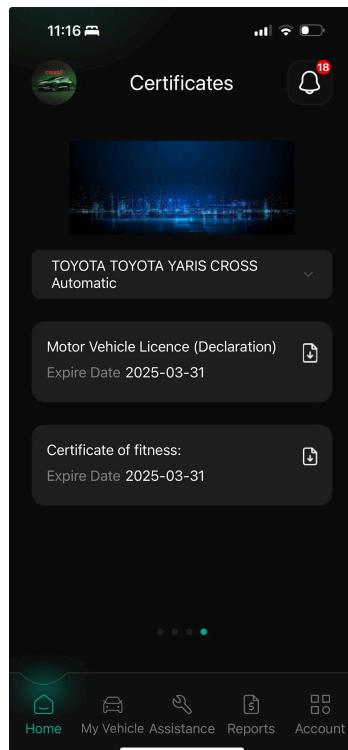

2. The information scanned are all captured on the screen as per character recognised. However, it should be validated with the information as administered by Admin. The application should guide user that a few fields are not properly captured. The user should thus select the correct data in the drop down list. It looks like the data being incorrect, the application has not been able to register the vehicle as per the below:

3. The renewal notice of the insurance is not appearing for the car captured as per below. Please check and correct.

4. The renewal notice of the certificate is not appearing for the car captured. Please check and correct.

5. In the admin panel, the engine capacity should be assigned to the existing model as captured by the user and if already existing, it should not be saved anew.

The screenshot shows the 'Engine Capacity List' page of the admin panel. The URL in the browser is cruise-mu.com/public/admin/vehicle-management/engine-capacity. The page includes a navigation sidebar on the left with various management modules like Engine Capacity, Insurance Management, and Report Manager. The main content area displays a table of engine capacities with columns for S.No., Engine capacity, Brand name, Model name, Created On, and Updated On. The table contains 7 entries, all of which appear to be new entries as they have unique values in the 'S.No.' column (1 through 7) and distinct creation and update times.

S.No.	Engine capacity	Brand name	Model name	Created On	Updated On
1	1386cc	NISSAN	NISSAN MARCH	2025-03-13 07:13:02 PM	2025-03-13 07:13:02 PM
2	1386cc	NISSAN	NISSAN MARCH	2025-03-13 06:55:55 PM	2025-03-13 06:55:55 PM
3	1430	B M W	I18	2025-03-13 06:26:39 PM	2025-03-13 06:26:39 PM
4	1490cc	TOYOTA	TOYOTA YARIS CROSS	2025-03-10 09:14:42 AM	2025-03-10 09:14:42 AM
5	294kw	MG	N/A	2024-11-07 01:20:33 AM	2024-11-07 01:20:33 AM
6	294kw	MG	PACE	2024-11-07 01:19:03 AM	2024-11-07 01:19:03 AM
7	Sudhanshu Sharma	MERCEDES	JAGUAR	2024-11-07 01:18:42 AM	2024-11-07 01:18:42 AM

6. In the admin panel, the cost of fuel needs to be amendable as it fluctuates based on the authorities instructions. Please amend accordingly. (Note that past historic capture of fuel cost and should not be altered.

The screenshot shows the 'Fuel Used List' page of the admin panel. The URL in the browser is cruise-mu.com/public/admin/vehicle-management/fuel-type. The page includes a navigation sidebar on the left with various management modules like Fuel Used, Transmission Type, and Report Manager. The main content area displays a table of fuel types with columns for S.No., Fuel Used Name, Cost, Created On, Updated On, and Status. The table contains 5 entries, all of which are marked as 'Active'. The 'Cost' column shows values ranging from 95 to 100.

S.No.	Fuel Used Name	Cost	Created On	Updated On	Status
1	Diesel	100	2024-09-13 05:32:20 AM	2025-02-25 07:08:19 AM	<input checked="" type="button"/> Active
2	Gas	100	2024-07-01 02:52:35 AM	2024-09-17 01:22:57 AM	<input checked="" type="button"/> Active
3	Petrol	95	2024-07-01 06:32:57 AM	2024-09-17 01:22:52 AM	<input checked="" type="button"/> Active
4	CNG		2024-09-13 05:32:10 AM	2024-09-17 01:22:49 AM	<input checked="" type="button"/> Active
5	Electric		2024-09-13 05:32:27 AM	2024-09-17 01:22:42 AM	<input checked="" type="button"/> Active

Add field:

7. In the Fuel Refill Menu, to include an additional field of Fuel Type (where indicated) the user can select for the fuel user is putting in the vehicle. The fuel type selected should be the one used to calculate the litres it represents.
